Licensing system

Annual licence

Most RTOs purchase an annual licence to use the resources to deliver and assess TAE units, skill sets and qualifications.

Our annual fee is based on the estimated number of ***Enrolled Students*** in the upcoming 12-month period

Enrolled students are the total number of individuals who engage in any form of training and/or assessment provided by the RTO (or its partners) that utilises any part of our resources:

- whether internal, external students, face to face, online or correspondence
- whether paying an enrolment fee or not
- whether in Australia or around the world
- whether delivered by the RTO or its partner
- including those using versions of the resources translated into another language or used in another qualification that includes one or more TAE units
- including training and assessment pathway, or assessment-only pathway
- including individuals who complete all or part of the TAE qualification.

BLACK licence

We also offer a prestigious BLACK licence to those RTOs wanting to pay a one-time fee. BLACK licence holders don't pay any renewal fees and receive access to updated versions of the materials for as long as we continue to maintain and update the product.
